

# EASTSIDE JEWISH COMMONS

Building community in a community building.

## The Jewish Professional Flex User Package

**\$72 / month**

The *Jewish Professional Flex User Package* allows Jewish community professionals to work inside the Commons in any open space for up to 20 hours per month. It also includes **two hours of reserved conference/meeting room use per month** in other spaces (not including the Atrium) + discounted hourly rates to book additional time in any of our meeting rooms and spaces.

This will allow you to enjoy a warm and collaborative community working around you, as well as access to the Eastside Jewish Commons (EJC) space from 7:00 am - 10:00pm, use of a printer/scanner/copier, coffee maker, espresso machine, whiteboards for brainstorming, wifi, and access to a “phone booth” on the ground floor for Zoom/calls.

**The Flex User package is billed monthly, with a 6-month commitment.**

This user package is ideal for a staff member of an EJC Partner Organization or an individual professional working in Jewish communal services or another industry who is seeking safe and dedicated space to work from, as well as inclusion in a vibrant professional community. In order to foster community and connections, EJC will host regular social events for community professionals to mix and mingle. Folks will also be invited to check out other events, services and programming happening at the Commons.

The *Jewish Professional Flex User Package* includes a 1-week free trial so that you can try it out and see if it's a good fit for your goals. We look forward to connecting with you!
